Zohaib Rukhsar

Flutter Developer | Cross-Platform Mobile App Engineer
Pakistan | zohaibmalikzm401@gmail.com | +92 342 0442565

PROFESSIONAL SUMMARY

Flutter Developer building cross-platform mobile applications with Dart, with hands-on experience in BLoC, Riverpod, and Provider state management, MVVM and Clean Architecture, REST API and Firebase integration, and responsive UI implemented from Figma designs. Also develops native Android applications in Kotlin, Java, and XML. Currently at AVISA DEV, Lahore, covering development, testing, and release builds.

TECHNICAL SKILLS

Cross-Platform Development: Flutter, Dart, Responsive UI, Custom Widgets, Figma-to-Code
State Management & Architecture: BLoC, Riverpod, Provider, MVVM, Clean Architecture
Backend & APIs: REST APIs, Firebase, Node.js (API integration), Python
Native Android: Kotlin, Java, XML, Android Studio
Tools & Workflow: Git, GitHub, VS Code, Android Studio

PROFESSIONAL EXPERIENCE

Flutter & Android Developer | AVISA DEV, Lahore (Onsite) *Jan 2025 – Present*

- Develop and maintain cross-platform mobile applications using Flutter and Dart.
- Structure Flutter codebases with BLoC, Provider, and Clean Architecture to keep features scalable and maintainable.
- Integrate RESTful APIs and Firebase services to support real-time data handling and user authentication.
- Implement Figma designs as responsive Flutter interfaces, working closely with UI/UX designers.
- Optimize application performance to reduce UI lag and improve the experience across devices.
- Build native Android applications using Kotlin, Java, and XML where projects require them.
- Own the release lifecycle: deployment builds, debugging, testing, and ongoing app maintenance.

PROJECTS

Wallet App — Fintech Project
Technologies: MVVM, BLoC, Node.js backend APIs

- Implemented MVVM architecture with BLoC state management for a scalable, maintainable codebase.
- Integrated Node.js backend APIs for transaction handling and real-time wallet updates.

Still Blink — Client Project
Technologies: Flutter, Dart, BLoC

- Delivered a Flutter application for a client engagement.
- Built the UI components first, then implemented BLoC state management to handle the application's business logic.

Nectar App — UI/UX Case Study
Technologies: Flutter, Dart, custom widgets, animations, responsive layouts

- Built the user interface for a grocery / e-commerce Flutter application from a UI/UX design.
- Created custom widgets, animations, and responsive layouts to improve user engagement.

QR Vertex — Android App, Live on Google Play
Technologies: Kotlin, XML, Android Studio, Node.js APIs

- Designed and developed a native Android application using Kotlin and XML in Android Studio; published on Google Play.
- Integrated Node.js APIs for backend communication and built a responsive user interface.

Crown Well — Client Project, Technoblick
Technologies: Kotlin, XML, Android Studio, Node.js APIs

- Collaborated on a consultant application for a client, built with Kotlin and XML in Android Studio.
- Integrated Node.js APIs to connect the app to its backend services.

EDUCATION

Bachelor of Science in Computer Science | Superior University, Lahore, Pakistan | Graduated 2026
